VIII. Certain observations on the international application

The following observations on the clarity of the claims, description, and drawings or on the questions whether the claims are fully supported by the description, are made:

1. Claims 1 and 27 are objected to under PCT Rule 66.2(a)(v) as lacking clarity under PCT Article 6 because claims 1 and 27 are indefinite for the following reason(s): Claims 1 and 27 recite the limitation "a second of said plurality of partitions". There is lack of antecedent basis for this limitation because the claim does not recite "a first plurality of partitions".

2. Claims 4, 10, and 26 are objected to under PCT Rule 66.2(a)(v) as lacking clarity under PCT Article 6 because claims 4, 10, and 26 are indefinite for the following reason(s): Claims 4, 10, and 26 recite the limitation "the Main and Extended Profiles of the JVT standard". There is lack of antecedent basis for this limitation.
